

**inpar** GROUP

**Providing Solutions to the Rail, Locomotive & Transit Industries**

**With a diverse portfolio and extensive range of capabilities,  
INPS has become a manufacturing solution provider.**

IEP has developed  
an Air Conditioner  
and Auxiliary Power  
Unit for Locomotives.

APD provides  
product development,  
manufacturing, and  
technical support for  
locomotives.

S&C Rail provides  
Signal Case  
Replacement  
Systems for Railway  
Infrastructures.

INPS is a forward-thinking  
integrated provider of  
product solutions to a  
variety of commercial and  
industrial companies.

Natsco works with  
Transit Authorities to  
reduce sole-source  
dependencies by  
developing new solutions  
and providing sales and  
service of parts.

## INPS Group of Companies

Founded in 1966 with manufacturing and distribution facilities located in the USA, Canada and Mexico, The INPS Group of Companies remains a synergistic family of like-minded individuals and corporations whose primary goal is best described as: Customer Satisfaction.

With an emphasis on employee retention, satisfaction and integrity, the achievement of this goal is accomplished by various means including: research, the offer of engineering and design services and installation, the investment in the development of new and innovative manufacturing companies or techniques and the perpetual relentless pursuit of technological advancement and quality.

As a global supplier to industry and consumer groups alike, the INPS Group remains enthusiastically well-prepared to address any challenge.

**Offering Solutions, Not Just Products**

## Our Global Reach

London, Ontario is the home office of INPS Group of Companies.

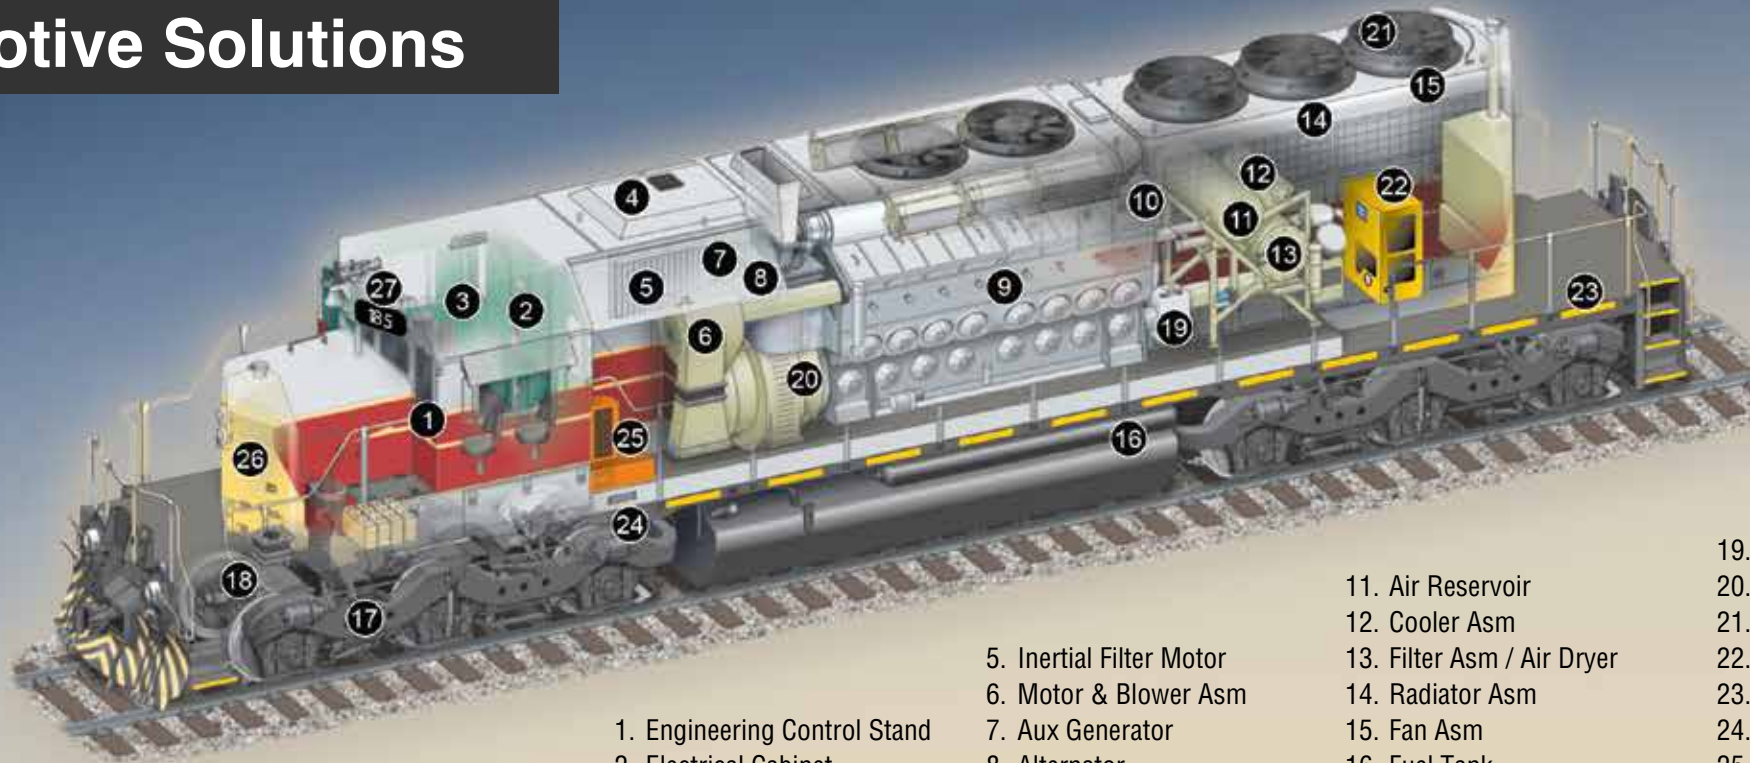

Through our facilities in Canada, USA and Mexico we manufacture and distribute products globally.
